HEAP OF RUINS.

Three Business Buildings Are Destroyed by Fire at Billings.

Billings, O. T., Sept. 29.—Billings was visited by the most disastrous fire in the history of the town Monday morning and three business buildings on the north side of the principal block lie a heap of smoldering ruins. Nothing but the fact that the adjoining buildings are of stone and that there was but one fire escape saved the remainder of the town from destruction, as Billings has no waterworks and was at the mercy of the flames. A large crowd gathered quickly to the first alarm and every effort was put forth to save property with what means were at hand.

The building owned and occupied by J. H. Butler is a loss of \$1,000, fully covered by insurance.

A large double frame building, owned by Swartzout of Oklahoma City, and occupied on one side by E. Schmander's short order house and on the other by the Misses Tully and Hunter, milliners and dressmakers, in the rear of which they lived, was consumed, but the personal belongings and furniture of the occupants were about all saved, the loss to Misses Tully and Hunter being practically nothing and that of E. Schmander being \$100, with no insurance. The building was valued at \$50 and was not insured.

The heaviest loss falls upon H. C. Scingale, who owned the large two-story building, in which he conducted a lodging house upstairs, and had one of the best equipped restaurants in Oklahoma downstairs. But little of his furniture and fixtures were saved. His loss will amount to \$2,000, with but \$1,000 insurance.

The one-story store owned by Samuel St. Clair, where T. L. Bonnet has his grocery and meat market, is west of the burned buildings and in the line of the fire, was damaged \$250, fully insured, and Bonnet's stock was injured \$50 worth, also fully insured.

Clark and Cooper are in the next building, with a stock of general merchandise, and have sustained a damage of about \$1,000, caused by the hurried carrying out of the goods.

The only casualty was a sprained ankle sustained by Dan Detweiler.

The fire originated in J. B. Butler's building and is supposed to be the work of rebegs. Less than a week ago an attempt was made to burn the building occupied by T. L. Bonnet, but the blaze was discovered and extinguished before much damage was done.

INSTALLS A GAS PLANT.

It Must Be in Operation Within a Year.

Guthrie, O. T., Sept. 29.—H. S. Clark of Chicago has contracted with the city of Guthrie to install a new gas plant, which must be in full operation within one year. Mr. Clark recently secured a franchise from the city council and has a contract with the city for \$100,000 an assurance that work will be commenced within sixty days. Within four months the company must have \$5,000 expended in material and labor, the material to be on the ground.

It is believed that the gas plant is an assured thing, and many Guthrie citizens are ready to have the pipes placed in their homes whenever the company gets ready for business.

mail clerk notified Mr. Cook, the assistant postmaster, who summoned the chief, but it turned out that James, or Moore, had sent another negro after his mail. The real criminal was arrested a few moments later.

He was popular among the colored people here and had been at work as a saloon porter, no one dreaming that he was a criminal until he was arrested. He was a hard worker. He is now in jail, handcuffed and guarded for security, and an officer will probably arrive from Sedalia tonight or tomorrow to take him back.

Moore confessed his crime this afternoon to Chief Hill and Policeman Watson, after a little skillful questioning by those officers.

He stated that he was foreman of a kitchen for a boarding crew on a Missouri railroad near Sedalia, and that he and the colored foreman of a crew had a difficulty, he finally taking his time and going to town, where he purchased a revolver.

At the camp the crew foreman entered the tent and the difficulty was again renewed, the crew foreman reaching for a gun, but Moore beat him and as a result the man was shot and instantly killed. Moore then fled. He declares that his life was threatened by the crew foreman and that he was obliged to take the step.

Vigorous Prosecution Follows Violation of Law

Guthrie, O. T., Sept. 29.—Secretary Thomas Morris, of the Oklahoma Live Stock Sanitary Commission, has received the report on the case of S. B. Pope, tried and convicted in Noble county for violation of the quarantine law, as stated yesterday. The report gives the status of the case as follows:

"Perry, O. T., Sept. 26.

"Mr. Thomas Morris, Secretary Oklahoma Live Stock Sanitary Commission, Guthrie, O. T.:

"Dear Sir—The trial of S. B. Pope, charged with violation of our quarantine regulations by driving cattle from the Otter reservation to Noble county, came up for trial today before the probate court of this county and resulted in a conviction of Mr. Pope, who was fined \$200 and costs. He has, however, appealed this case to the district court. In regarding his decision Probate Judge Allen said that the territory having proven that the cattle were in the possession of, and being moved by, Mr. Pope in the Otter reservation on July 19, and that they were in the possession of, and being moved by, him in Noble county on July 20, was sufficient proof that he had driven them across the quarantine line, situated between these two districts. In this case it was not charged that these cattle were infected or diseased, and the judge held that it was not necessary, as the law plainly prohibited the movement of any cattle across this line. The evidence in this case showed that these cattle were infected and that quite a heavy loss had been sustained in the pasture to which they were driven, and the judge in commenting on this evidence stated that it was a violation of the laws of Oklahoma to move infected or diseased cattle from one part to another however short the distance might be, and that the defendant in this case had by moving infected animals, violated this law and could, if prosecuted, be convicted of this offense in addition to the offense of crossing the quarantine line.

"The attorneys for the defense in this case, in their effort to discredit the fact that the ticks caused disease, brought out quite an interesting and instructive scientific exposition of the life, history and habits of the ticks and the symptoms and cause of splenic or tick fever and its action upon the different organs of the body containing Mr. and Mrs. Walker and Mrs. A. T. Walker, became frightened at Tom Whitaker's automobile on North Broadway, and ran away, rushing up a high terrace a few doors north of the new Whitaker residence north of Highland avenue, and finally turning the buggy over, the two ladies alighting with considerable force against a tree, while Mr. Walker struck the ground.

All were bruised and the ladies were very much frightened. They were taken into a residence there, and given attention. It being found that the ladies were bruised on the arms and backs, while Mr. Walker's arms and shoulders were injured, though none of them so seriously that they are confined to their homes today.
